Dick Wernette of Monterey, Mexico, who is on a visit to his home at D'Hanis, was in Hondo Thursday afternoon on business and took occasion to visit the Anvil Herald office, and to give the Linotype the once-over. He says the machine will do.

Mr. and Mrs. Walter Rothe of D'Hanis, Mr. and Mrs. Felix Batot of Hondo and Mrs. Ferd. Reinhart composed an auto party that motored to Del Rio last Saturday to visit Mr. and Mrs. H. C. Rothe, and incidentally to witness the baseball games between the Hondo-Del Rio teams.

Miss Mary Kempf was successfully operated on for appendicitis Tuesday at the Santa Rosa Infirmary in San Antonio. Dr. Ferd. P. Herff performed the operation and latest reports from her are that the young lady is progressing favorably towards recovery. Her mother, Mrs. August Kempf, is with her.

Owing to so many of the officers and members of the Chamber of Commerce being absent from the city Monday night, the meeting called for that night to consider cleaning up the weeds was not convened. As we still have the weed nuisance with us, and it is becoming a greater menace every day, there will probably be another meeting called soon for this same purpose.

Hondo's baseball boys returned from Del Rio Sunday night, their banner trailed in the dusts of defeat, but with their fighting spirits undampened. They had the misfortune to lose the entire series of three games. On Wednesday the fast Chic-Chic team of San Antonio came out and went up against our twirlers to lose to the tune of 9 to 3 on our local diamond. Yesterday, the team went to Bandera to play a return game with the team there, but this paper goes to press too early to report any of the results.

H. Hartman, who is in New York buying fall goods for his string of Southwest Texas stores, is expected to return to Hondo next week. Mr. Hartman has been in New York most of the summer, and with his keen eye for business, it goes without saying that he has taken advantage of the opportunity to so study the market as to enable him to best serve his customers with economical buys for their fall purchases. It is this spirit of service to the buying public that is building the big business Mr. Hartman now enjoys in several Southwest Texas towns.

Mr. and Mrs. E. R. Leinweber and daughters, Misses Erna and Elta, left on this morning's Limited for quite an extended summer tour. Their first stop will be at Los Angeles, California, thence to San Francisco. From there their itinerary has not been definitely planned. They may go up the coast to Seattle, Washington. However, Salt Lake City and Denver are scheduled points of interest included in their home-bound journey, the latter city being selected for quite a protracted visit. The party expects to be gone about six weeks and all their Hondo friends wish them a most enjoyable trip.

It may be of interest to the Anvil Herald readers to know that the taxable values of Medina county for the year 1921, by precincts, according to a memorandum furnished the court by the Medina Abstract Company, was as follows: Precinct No. 1, Hondo, \$3,340,875; Precinct No. 2, Castroville, \$3,684,697; Precinct No. 3, D'Hanis, \$2,945,444; Precinct No. 4, Devine, \$2,547,205, making a grand total of \$12,518,221.

After quite a long lapse indications are that a more thorough and determined effort to tap the subterranean oil pool that geologists claim exists in this section, is to be made in the near future. Three new locations were made the past week and contracts and forfeits posted for the immediate commencement of development work. A California company will drill on the Cruseturner farm, near the site of the old Medina Oil Development Company's well, a total of three wells to be drilled. Frank Brown has secured a lease on a part of the George Schmidt ranch, and is also under contract to sink three wells, the first near where the Live Oak slough empties into the Hondo, while another company has secured a lease on the Yancey road, and announce their purpose to begin active work as soon as proper transfers can be rushed through. With the Yancey Oil and Gas Company actually drilling, the truth or falsity of oil in that part of the country ought to be determined within the next six months. An oil company has secured a lease on a large acreage north of town, but we are not advised as to its drilling intentions. Let the good work go on. Medina county people are not risking anything in these new ventures, but stand to gain if the oil pool is tapped. This section could use several good wells to advantage just at this time.

Aren't you about tired of engine troubles?

Doesn't it sort of get on your nerves to be continually having the carbon cleaned out and spark plugs wiped off, and to have to shift to second on hills you ought to take on high.

Why be bothered with these troubles. They are caused by poor lubricating oil—cheap oil—or running your car for thousands of miles without draining the crank case.

Providing your car is in good mechanical condition, you can keep it that way by using the correct grade of Gargoyle Mobiloil, and by draining the crank case every 800 to 1,000 miles.

We'll put your car in good mechanical condition and keep you supplied with the correct grade of Mobiloil.

Get rid of bothersome engine troubles for good.

In the evening the young folks rounded out a most delightful day with a dance at the hall.

ODD FELLOWS INSTALL.

At a regular meeting of Medina Lodge No. 867, I. O. O. F., held at the hall Thursday night, the officers were installed for the ensuing term, the District Deputy Grand Master of this District visited the Lodge officially, and there was work in the initiatory degree.

Three automobile loads of visitors from Uvalde Lodge, accompanying District Deputy Grand Master, W. S. Gordon, arrived early on the scene. The Lodge opened in the third degree, transacted routine business, and closed to open in the Initiatory Degree. A candidate being in waiting, he was received and given the Initiatory Degree.

After the degree work was finished the Lodge recessed for refreshments, and all cooled their parched throats with lemonade and refreshed themselves with a delicious repast of ice cream and cake.

The Lodge then resumed work in the third degree, received its District Deputy Grand Master in form and proceeded to install its officers for the ensuing term.

The officers installed were: W. A. Mask, Noble Grand. Jerry F. Smith, Vice-Grand. L. J. Van Fleet, Warden. Henry A. Mercer, Conductor. Fletcher Davis, Right Supporter to Noble Grand.

R. A. Carter, Left Supporter to Noble Grand. C. C. Rogers, Right Supporter Vice-Grand.

O. J. Schuehle, Left Scene Supporter.

Guido Richter, Inside Guardian. Paul Richter, Outside Guardian.

After the installation, several of the brethren spoke briefly for the good of the order, and the Lodge closed in F. L. and T.

The visiting brethren were: W. S. Gordon, District Deputy Grand Master; J. J. Johnson, veteran Secretary of Uvalde Lodge, and Messrs. H. K. Bates, J. A. Flowers, W. H. Roach, A. L. Roach, G. M. Worley, S. J. Neely, Arthur A. Rosamond, Sam Bellah, Luke Riley and E. C. Dougherty.

GILLIAM-THOMSON.

A wedding of much interest to the people of Hondo was that of Miss Panchita Gilliam and Mr. Joe Lee Thomson, which was solemnized at the Methodist church here on Monday afternoon, July 10, at 5:30.

The church had been beautifully decorated by friends of the popular young couple and a rainbow color scheme had been carried out in every detail. The center aisle, down which the bride passed to the "end of the rainbow" in search of the happiness in store for her, was a bower of beauty, with arches entwined with queen's wreath and covered with bands of crepe paper in the various colors of the rainbow.

Prior to the entrance of the bridal party, Mrs. George Smith, in her rich contralto, sang "All That I Want Is You," accompanied by Mrs. Dr. Smith at the piano and Miss Irene Saathoff on the violin, and while Mrs. Dr. Smith rendered Mendelssohn's Wedding March the bridal party entered in the following order: Miss Gertrude Reilly in yellow organdie and carrying an arm bouquet of Shasta daisies, down the left aisle and Mr. Garland Martin down the right aisle; Miss Evelyn Lacy, in gray organdie over pink and carrying daisies and ferns, down the left and Mr. Sidney Fly down the right; Miss Dorothy Stevens, in green organdie and carrying daisies and ferns, and Mr. Selby Woolfs; Miss Nettie Fly, in blue organdie, also carrying an arm bouquet of daisies and ferns, and Mr. Wallace Heath. Then the little flower girls, Miss Elizabeth Holloway, in pink organdie, and Miss Edna Helen Smith, in green organdie, entered strewing flowers in the path of the bride as they proceeded slowly down the center aisle to the foot of the altar. They were followed by the tiny cousin of the groom, Master Elmer Strawn, who carried the ring in the heart of a lily. With him marched the little niece of the bride, Miss Mary Ellen Gilliam, dressed in a fluffy dress of white organdie and lace with trimmings of pink rose buds. She carried a basket of Shasta daisies and ferns. Then came the matron of honor, Mrs. Chas. Gilliam, in a lace trimmed dress of white organdie, and carrying an arm bouquet of Shasta daisies and ferns. Then came the maid of honor, Miss Eleanor Thomson, in pink organdie and carrying daisies and ferns. The bride, in a girlish dress of white taffeta, with veil of tulle and a wreath of orange blossoms and carrying a bouquet of Shasta daisies and ferns, entered with her father, Mr. C. W. Gilliam, and proceeded to the foot of the altar where they were met by the groom and his best man, Mr. Myrem Bass. The bride and groom advanced to the altar where Rev. J. W. Long, of Pearsall, using the impressive ring service, pronounced them man and wife.

The young people are at home to their friends in Hondo where they will in future reside, Mr. Thomson being the newly elected principal of Hondo High School.

The out-of-town guests were: Mr. and Mrs. Chas. Gilliam and children and Mrs. J. L. Camp and daughters, Misses Mary and Lamarline, of San Antonio; Mrs. Stroman and little son of Ardmore, Oklahoma; Mr. Elmer Pucini and Mr. and Mrs. L. J. Thomson of Uvalde; Miss Dorothy Stevens of Houston and Miss Eleanor Thomson of Georgetown, and Mr. Myrem Bass of Georgetown.

This paper joins in congratulations and best wishes to the happy pair.

Why Suffer?

Cardui "Did Wonders for Me," Declares This Lady.

"I suffered for a long time with womanly weakness," says Mrs. J. R. Simpson, of 57 Spruce St., Asheville, N. C. "I finally got to the place where it was an effort for me to go. I would have bearing-down pains in my side and back — especially severe across my back, and down in my side there was a great deal of soreness. I was nervous and easily upset."

TAKE

CARDUI

The Woman's Tonic

"I heard of Cardui and decided to use it," continues Mrs. Simpson. "I saw shortly it was benefiting me, so I kept it up and it did wonders for me. And since then I have been glad to praise Cardui. It is the best woman's tonic made." Weak women need a tonic. Thousands and thousands, like Mrs. Simpson, have found Cardui of benefit to them. Try Cardui for your trouble.

Joe Huesser, Hondo, says: "I can highly recommend Doan's Kidney Pills for I know they are excellent. I suffered with my back and my kidneys bothered me a great deal. I had sharp, knife-like pains in my kidneys every time I moved. I had to get up nights on account of the irregular action of my kidneys. The secretions burned in passage and were highly colored. A friend told me of Doan's Kidney Pills so I used a box, which cured the attack. I always use Doan's now when my back bothers me and they never fail to help me."

The Linotype School

Where They Teach the Mechanism and Operation of this Marvelous Machine.

THE LINOTYPE

The Anvil Herald's Model 8.

Mergenthaler Linotype Company has at its agency in New Orleans, Louisiana, a school in which the operation and mechanism of the machine is taught. The school gives several courses, six weeks and months being the usual courses.

Attend this school a student will have a fairly good idea of the business, although the Commission accepts some who know nothing of the trade. A good printer has an advantage over the non-printer when it comes to operating the machine, but they break about even in mechanism.

The purpose of the school is to place a place where persons purchasing machines may go and learn the mechanism of it and how to keep it in good running condition. Also courses are open to others at low rates. This is to put out operators or machinist-operators who take care of the Linotype and keep it running, thereby indirectly creating a demand for the machine. The instruction is given through experience and lectures. At the school the student gets to tear down and build up the various models of the Linotype machine. Then the instructors have the students tear the machine down and while it is grad-

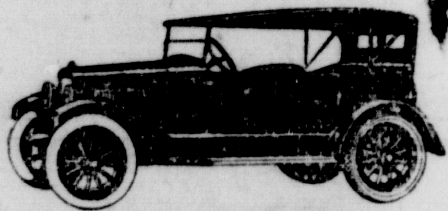

ually rebuilt, lecture to them in such a way that they cannot fail to get the true relationship of all the parts.

After a student has been over the machine a few times he is given a machine to himself. If while he operates, the student finds anything wrong with the machine it is open for him to find the trouble, clear it up by making an adjustment or removing the obstruction. If the student fails to clear up the machine he has able instructors who will show him just how it should be done. A student thereby learns the "hang-ups" and adjustments through practical experience.

When the student has learned the mechanism he is then coached on the different forms of printing that can be set on the Linotype, and in a general way given a chance to make good if he is willing to work. Almost any kind of printing may be composed on the Linotype very easily after a student has been coached.

The school in general offers a great opportunity for printers and non-printers to learn a trade that will always last and one that a person can better himself in if he is only willing to put himself into it.

Dear Mr. Davis:—

I earnestly feel like the people of Medina county should return me to the Legislature for a second full term on the 22nd of this month. My record is an open book to the people of the 77th District and it has not been attacked in any way by any of my opponents. I stand squarely for law enforcement, economy, uniform and equal taxation, good schools and good roads.

I am 37 years of age, a practicing lawyer, have been a staunch Democrat all my life, and during the 37th Legislature I served on the most important committees, namely, the Appropriations Committee, which is next to the Legislative body itself; served on the Free Conference Committee in equalizing the appropriations for the eleemosynary institutions of this State, which is one of the biggest propositions confronting us in disbursing the people's money at this time. I never ride the fence; you can always find where I stand by asking me. If experience is worth anything it should be in State affairs and Legislative matters.

Yours sincerely,
GROVER C. MORRIS.

The latest reports from the Santa Rosa Infirmary as to the condition of Mrs. H. E. Haass, whose critical illness was mentioned in last week's paper, are still far from reassuring, in fact, but little hope is held out for her ultimate recovery. Everything that medical science is capable of is being done to alleviate her suffering, and while hoping against hope, those best capable of knowing predict that the visit of the Grim Messenger is but a short while delayed. Judge Haass is remaining at her bedside in San Antonio and has the sincere sympathy of the people of Hondo in the great ordeal he is passing through.

Sliced peaches with Kellogg's Corn Flakes!

Can you imagine anything so good to eat early on a warm morning or for lunch as sliced peaches and milk, all-cold and fine—and Kellogg's Corn Flakes, crispy and delicious!

Eat plenty of Kellogg's Corn Flakes and fruit and know the happiness of feeling sprightly, despite the heat! Kellogg's Corn Flakes are exactly the sort of a diet you need. They are not only satisfying, but nourishing as well and just wonderful for little folks, in particular, because they digest so easily.

The new Goodyear
Cross-Rib Tread Cord

A Remarkable New Cord Tire at a Popular Price

Here is a big, sturdy, long-wearing new tire built to satisfy the buyer on every point of mileage, quality and price.

It is designed especially for the man who wants the essential advantages of cord tire performance at the lowest possible price.

It is designed to offer the buyer a quality product at a price even lower than he has formerly paid for a "long discount" tire. It has a different tread from the famous Goodyear All-Weather Tread Cord—a new tread with a deep, clean-cut, cog-like pattern—and its selling price ranges from 20 to 25% less.

This new tire is the Goodyear Cross-Rib Tread Cord.

Like the All-Weather Tread Cord it is liberally oversize in all straight-side sizes, the 4½-inch tire, for example, actually measuring nearly 5 inches.

Like the All-Weather Tread Cord, its foundation is genuine high-grade long-staple cotton.

Like the All-Weather Tread Cord, it embodies the efficient group-ply construction, a Goodyear patent.

Like the All-Weather Tread Cord, it is the product of an experienced company which has a world-wide reputation to safeguard.

Look at the prices of the new Goodyear Cross-Rib Tread Cord, listed below.

Compare these prices with net prices you are asked to pay for "long discount" tires of unknown reputation and value.

Why take a chance on such tires?—you know it doesn't pay.

You can get the new Goodyear Cross-Rib Tread Cord, as well as the famous All-Weather Tread Cord, from any of the Goodyear Service Station Dealers listed here.

DEVINE NEWSLETS.

From The Devine News.

At a meeting of the city commission held the past week, the office of nightwatchman was discontinued, and the town of Devine is without the most important officer of the town, the man directly responsible for law and order when the rest are asleep; whose office has kept down our fire and burglary risks and saved for the town more than his salary costs many times, no doubt.

Now is the Time to Keep Lands Mulched.

It is a little less than a tragedy, with cotton around 23 cents, to see fine cotton, now two weeks since the rains, unplowed and beginning to shed fruit. Cotton plowed right after the rains and the grounds kept mulched, and plowed every week, is fruiting nicely and bids fair to make a good crop. Lands baked and hard are already throwing off and the weevils are doing their worst, not being disturbed by plowing, agitating and covering up the weevils. The man who plows shallow and often for the next two weeks will make the cotton. It will pay a man \$10 a day to keep his cultivators going now, according to the best authorities on dry farming. You can keep the moisture in the land by constant stirring the top and keeping it mulched. If it is already dry, hard and packed, it cannot be brought back by plowing—it is too late for that cotton, now.
